

Technology Training that Works

Practical Arc Flash Protection for Electrical Safety Professionals

Contents

1	An Overview of Electrical Hazards	1
1.1	Overview	1
1.2	General hazards in industry	1
1.3	Electrical hazards	2
1.4	Electrical accidents and safety measures	5
1.5	Summary	5
2	Arc Flash and its Effects	7
2.1	Introduction	7
2.2	What is an arc?	7
2.3	Important definitions related to arc flash	8
2.4	Common reasons for arc flash	9
2.5	Arc Flash mechanism	9
2.6	Effects of Arc Flash	10
2.7	Incident energy of arc and arc flash hazards	11
2.8	Location affects the hazard	15
2.9	Consequences of an arc flash incident	15
3	Fundamentals of Power Systems	17
3.1	Introduction	17
3.2	Common distribution options	17
3.3	Main components of an industrial distribution system	19
3.4	Voltage classification	20
3.5	Multiple voltage levels in power distribution	20
3.6	Types of distribution arrangements and redundancy	25
3.7	Faults in electrical systems	30
3.8	Short circuit currents	33

Technology Training that Works

3.9	Bolted Vs Arc fault currents	34
3.10	Earthing and its influence on Arc Faults	34
3.11	System Earthing	35
3.12	Influence of Earthing on Arc Faults	38

4 Fault Current Calculations 39

4.1	Approach	39
4.2	What is impedance?	40
4.3	Impedance of alternators	42
4.4	Typical fault currents in various voltage levels	43
4.5	Typical electrical networks	44
4.6	Electrical networks represented by equivalent diagram	44
4.7	Representing multiple sources in the equivalent diagram	45
4.8	Reduction of impedance diagram	46
4.9	Concept of base MVA for equivalent circuits	49
4.10	Typical per unit impedance of transformers	50
4.11	Fault contribution by motors	50
4.12	Typical calculations using numerical examples	51

5 Protection of Electrical Power Systems 57

5.1	Need for protective apparatus	57
5.2	Basic requirements of protection	58
5.3	Basic components of a protection system	59
5.4	Protection of power distribution systems	59
5.5	Detection of fault currents	59
5.6	Fuses for protection	60
5.7	Protective relays	62
5.8	Electromechanical protection relay	62
5.9	Electronic protection relays	67
5.10	Coordination of protection	69

6 Arc Flash Studies - Codes and Standards 73

6.1	Introduction	73
6.2	Safety Standards for Arc Flash hazards	74
6.3	Research in Arc Flash hazards	74
6.4	Basic requirements stipulated in standards for operator safety	75

Technology Training that Works

6.5	National fire protection hazards (NFPA)	76
6.6	NFPA 70B 2002	79
6.7	OSHA standards 29-CFR, Part 1910	79
6.8	The Institute of Electronics and Electrical Engineers (IEEE standard 1584)	81
6.9	Guide for Arc Flash hazard analysis	82
6.10	Limitations	83
6.11	Difference between NFPA 70E and IEEE 1584	83
6.12	Summary	83

7	Arc Flash Study - Detailed Procedure	85
----------	---	-----------

7.1	Flash protection approach boundary	85
7.2	Detailed Arc Flash Study	89
7.3	NFPAQ 70E - May 2003 ROP	90
7.4	Incident energy calculations	91
7.5	Methods of applying the model	98
7.6	Warning labels	98
7.7	Personal Protective Equipment (PPE)	101
7.8	Summary	102

8	Data Collection and System Modeling	103
----------	--	------------

8.1	Data collection	103
8.2	Determine system modes of operation	115
8.3	Lower short circuit conditions with long tripping times	117
8.4	Summary	118

9	Determining Arc Flash Hazard Risk Category	119
----------	---	------------

9.1	Flash hazard analysis	119
9.2	Hazard risk category / PPE matrix table approach	120
9.3	Hazard risk category for metal clad switchgear 1kV and above	124
9.4	Simplified table approach	126
9.5	Comparison of flash hazard analysis methods	128
9.6	Summary	132

Technology Training that Works

10	Controlling Arc Flash Hazards	133
10.1	Introduction	133
10.2	Eliminating Arc Flash events	133
10.3	Avoiding Arc Flash risks	144
10.4	Mitigating arc effects	146

11	Personal Protective Equipment	147
11.1	Evolution of flame resistant fabrics	147
11.2	ASTM	151
11.3	Fire resistant clothing	154
11.4	Other PPE	157
11.5	FR Fabrics and the effect of undergarments	158
11.6	Disadvantage of FR fabrics	159
11.7	Summary	159

	Appendix A – Clarification of the use of an arc flash calculator	161
--	---	------------
