

Technology Training that Works

Practical Analytical Instrumentation in On-Line Applications

Contents

| | | |
|----------|------------------------------|-----------|
| 1 | Basic Chemistry | 1 |
| 1.1 | Introduction | 1 |
| 1.2 | Atomic structure | 3 |
| 1.3 | Periodic table | 6 |
| 1.4 | Properties of elements | 8 |
| 1.5 | Formation of ions | 10 |
| 1.6 | Bonding | 13 |
| 1.7 | Chemical equations | 19 |
| 1.8 | Naming compounds | 20 |
| 1.9 | Atomic weight | 22 |
| 1.10 | Molar concentration | 23 |
| 1.11 | Oxidation reduction | 25 |
| 2 | Electrochemical Cells | 27 |
| 2.1 | Introduction | 27 |
| 2.2 | Potential difference | 28 |
| 2.3 | Simple voltaic cell | 30 |
| 2.4 | Electrolytic bridge | 32 |
| 2.5 | Electrochemical series | 33 |
| 3 | pH Measurement | 37 |
| 3.1 | Introduction | 37 |
| 3.2 | Properties of water | 38 |
| 3.3 | Definition of pH | 38 |
| 3.4 | Measurement of pH | 40 |
| 3.5 | The measuring electrode | 41 |
| 3.6 | The reference electrode | 43 |
| 3.7 | Nerst equation | 48 |
| 3.8 | Antimony electrode | 51 |
| 3.9 | Sources of error | 52 |

Technology Training that Works

| | | |
|----------|---|-----------|
| 3.10 | Applications | 57 |
| 3.11 | Troubleshooting | 61 |
| 4 | Conductivity Measurement | 63 |
| 4.1 | Introduction | 63 |
| 4.2 | Conduction through ionisation | 65 |
| 4.3 | Ionic mobility | 67 |
| 4.4 | Practical conductivity measurement | 67 |
| 4.5 | Cell design and construction | 68 |
| 4.6 | Temperature compensation | 70 |
| 4.7 | Conductivity measurement of high purity water | 71 |
| 4.8 | 4-electrode sensor | 73 |
| 4.9 | Installation | 73 |
| 4.10 | Maintenance | 74 |
| 4.11 | Application | 76 |
| 5 | Redox Measurement | 83 |
| 5.1 | Introduction | 83 |
| 5.2 | Redox measurement | 84 |
| 5.3 | Applications | 85 |
| 5.4 | Calibration checking procedure | 86 |
| 5.5 | Trouble shooting | 87 |
| 5.6 | Conclusion | 88 |
| 6 | Turbidity Measurement | 89 |
| 6.1 | Introduction | 89 |
| 6.2 | Interaction between light and matter | 90 |
| 6.3 | Turbidimeter designs | 91 |
| 6.4 | Practical on-line system | 95 |
| 6.5 | Calibration | 97 |
| 6.6 | Turbidity measurement applications | 97 |
| 6.7 | Troubleshooting | 100 |
| 7 | Hygrometry 103 | |
| 7.1 | Introduction | 103 |
| 7.2 | Vapor pressure and humidity | 103 |
| 7.3 | Partial vapor pressure | 107 |
| 7.4 | Relative humidity | 107 |
| 7.5 | Parts per million | 108 |
| 7.6 | Hygrometric instruments | 109 |
| 7.7 | Hygrometric calculations | 115 |

Technology Training that Works

| | | |
|---|--|------------|
| 7.8 | Applications | 117 |
| 7.9 | Troubleshooting | 122 |
| 8 | Dissolved Oxygen Measurement | 125 |
| 8.1 | Introduction | 125 |
| 8.2 | Dissolved oxygen | 126 |
| 8.3 | Measurement of dissolved oxygen | 128 |
| 8.4 | Calibration | 134 |
| 8.5 | Installation and trouble shooting | 134 |
| 8.6 | Electrode maintenance | 138 |
| 8.7 | Applications | 139 |
| 9 | Total Free Chlorine Measurement | 145 |
| 9.1 | Introduction | 145 |
| 9.2 | Basic chlorine chemistry | 145 |
| 9.3 | Measuring systems | 148 |
| 9.4 | Measuring principle | 148 |
| 9.5 | Calibration | 149 |
| 9.6 | Application | 150 |
| 9.7 | Trouble shooting | 151 |
| 10 | On-Line Colorimetry and Titration | 155 |
| 10.1 | Introduction | 155 |
| 10.2 | Colorimetry | 155 |
| 10.3 | Colorimetry applications | 157 |
| 10.4 | Colorimetry troubleshooting | 159 |
| 10.5 | Titration | 160 |
| 10.6 | Titration applications | 163 |
| Appendix A Short Answer Questions | | 167 |
| Appendix B Practical Exercises | | 181 |
| Appendix C Practical Exercises - Solutions | | 201 |
| Appendix D Silica Analyser | | 207 |
