

Technology Training that Works

South African Standard SANS 10142 - The Wiring of Premises

Contents

1	Distribution System Overview	1
1.1	Introduction	1
1.2	Methods of generation of electricity	2
1.3	Transmission of electricity	4
1.4	Electrical distribution	5
1.5	Transformers	6
1.6	Switching	12
1.7	Circuit breakers	14
1.8	Electrical hazards	17
1.9	Electrical accidents and safety measures	18
1.10	Periodic inspection and maintenance	20
1.11	Summary	21
2	Safety Requirements of Electrical Installations – the Basics	23
2.1	Electric shock	24
2.2	Effect of electric shock	27
2.3	Avoiding the danger of shock	30
2.4	Earthing and bonding	31
2.5	Arc danger in electrical installations	37
2.6	How electric arcs are developed	39
2.7	Hazards of arcing fault	40
2.8	Limiting arc exposure	41
2.9	Importance of insulation in electrical safety	41
2.10	Enclosures and safety	42
2.11	Protecting electrical systems by over current protective devices	45
2.12	Protection against surge voltages	48
2.13	Basic principles of surge protection	50
2.14	Harmonics	52

Technology Training that Works

2.15	Objectives of safe design	54
2.16	Periodic inspection and maintenance	55
2.17	Key safety factors in operation and maintenance of electrical installations	56
2.18	Policies of operational and safety locking	59
2.19	Summary	62
3	Introduction to SANS 10142	63
3.1	Need for Standards in industry	63
3.2	Introduction to SANS 10142	65
3.3	Objectives of SANS 10142	67
3.4	Scope and exclusions of SANS 10142	67
3.5	Overview of SANS 10142	68
3.6	Common terms used in SANS	74
3.7	Compliance and applicable standards	82
3.8	Compliance with Acts for Occupation Health & Safety and Mine Health & Safety	90
3.9	Future development- Part 2 for HV installation	92
3.10	Mandatory and informative requirements of the Standards	93
3.11	Information given under annexure to the Standard	98
3.12	Comparison with IEC codes of wiring	105
3.13	Comparison with UK codes of wiring	107
3.14	Summary	107
4	Fundamental Requirements	109
4.1	Introduction	109
4.2	Safety stipulations	110
4.3	Basic Requirements of electrical systems and wiring	112
4.4	System characteristics	114
4.5	The harmful effect of equipment on electrical systems	115
4.6	Environmental conditions	124
4.7	Special requirements for medical locations	125
4.8	Safety by extra low voltage systems and special requirements	130
4.9	Summary	132
5	Installation Requirements (Parts 1 and Parts 2)	135
5.1	General circuit arrangement	136
5.2	Current-carrying capacity of conductors and cables	138
5.3	Installation of conductors and cables	159

Technology Training that Works

5.4	Positioning and fixing of cables	162
5.5	Wireways	165
5.6	Distribution boards	168
5.7	Bus bars	173
5.8	Protection	176
5.9	Circuit breakers	180
5.10	Disconnecting devices	182
5.11	Fuses	183
5.12	Consumer's earth terminal	184
5.13	Earthing	185
5.14	Bonding	189
5.15	Lighting	191
5.16	Socket-outlets	194
5.17	Fixed appliances	196
5.18	Summary	202
6	Special installations or locations	205
6.1	Introduction	206
6.2	Bathrooms, showers, spas, etc.	206
6.3	Swimming pools, paddling pools, ornamental pools, spas and fountains	212
6.4	Saunas	218
6.5	Construction and demolition site installations	219
6.6	Agricultural and horticultural locations	222
6.7	Caravan parks, mobile homes and marinas	223
6.8	Medical locations	225
6.9	Temporary installations	233
6.10	Extra low voltage lighting installations	235
6.11	Stage and theatre equipment	239
6.12	Safety and emergency lighting	239
6.13	Alternative supplies (low-voltage generating sets)	240
6.14	High-voltage (HV) apparatus	242
6.15	Verification and certification	248
6.16	Certificate of Compliance (CoC)	255
6.17	Summary	265
7	Verification and Certification of Installations	267
7.1	Responsibility	267
7.2	Installation characteristics	270
7.3	Electricity supply system	271

Technology Training that Works

7.4	Prospective short circuit current	276
7.5	Inspection	278
7.6	Testing	280
7.7	Certificate of Compliance	285
7.8	Summary	289
<hr/>		
Appendix 1 Assessment of Domestic Installation		291
<hr/>		
Appendix 2 Voltage Drop Calculation		293
<hr/>		
Appendix 3 Determining the Conduit Size		303
<hr/>		
Appendix 4 Cable Sizing		305
<hr/>		
Multiple Choice Questions		325
<hr/>		
Exercises		329
<hr/>		
Answers to Exercises		333
