

Technology Training that Works

Designing, Specifying and Constructing with Modern Concrete

Contents

1	Understanding Concrete	1
1.1	Introduction	1
1.2	What is concrete?	2
1.3	Concrete as a structural material	3
1.4	History of concrete	3
1.5	Ingredients of concrete	5
1.6	Types of Cement	12
1.7	Cement manufacturing Process	15
1.8	Chemistry of cement	17
1.9	Hydration of Portland Cement	18
1.10	Concrete Proportioning	20
1.11	Stages in Concrete formation	20
1.12	Characteristics of concrete	23
1.13	Reinforced Cement Concrete	28
1.14	Influence of temperature	28
1.15	Cracking in Concrete	30
1.16	Working Safely with Concrete	33
1.17	Summary	35
2	Design of concrete	37
2.1	Introduction	37
2.2	Concrete as a Composite Material	38
2.3	Factors to be considered	39
2.4	Specifications of a Concrete Mix	41
2.5	Steps in concrete Design	43
2.6	Reference Tables	45
2.7	Nature of Strength of Concrete	48
2.8	Minor Defects in Concrete	49
2.9	Construction defects in Concrete	54
2.10	Design Defects in concrete	57
2.11	Case studies	59

Technology Training that Works

2.12	Maintenance of Concrete	61
2.13	Summary	63
3	Manufacturing concrete	65
3.1	Introduction	65
3.2	Estimating and Measuring Quantities	67
3.3	Proportioning of concrete ingredients	68
3.4	Mixing Concrete	70
3.5	Formwork	74
3.6	Transporting and Placing	77
3.7	Compaction	80
3.8	Finishing	84
3.9	Curing	86
3.10	Joints in Concrete	88
3.11	Removing Stains from concrete surface	90
3.12	Shotcreting and Guniting	92
3.13	Surface Finishes in Concrete	93
3.14	Summary	95
4	Testing and quality assurance of concrete	97
4.1	Introduction	97
4.2	International Standards for analysis of test results	99
4.3	Water quality – Control and Testing	99
4.4	Aggregates –Quality Control	100
4.5	Testing of Cement	107
4.6	Tests of Fresh Concrete	108
4.7	Rapid Analysis of Fresh Concrete	112
4.8	Tests for Compressive Strength	116
4.9	Tensile Strength	118
4.10	Assessment of Concrete Quality	121
4.11	Nondestructive Quality Tests	122
4.12	Summary	126
5	Ready Mix Concrete	127
5.1	Introduction	127
5.2	Ready Mix Concrete	128
5.3	Production of RMC	130
5.4	Delivery of Ready Mixed Concrete	133
5.5	Tools required while using Ready Mix Concrete	134

Technology Training that Works

5.6	Inspection and Testing of Ready Mixed Concrete	134
5.7	Typical Examples of RMC products	135
5.8	Precast Concrete	136
5.9	Prestressed concrete	140
6	Concrete admixtures	143
6.1	Introduction	143
6.2	What the admixtures do?	144
6.3	What the admixtures don't do?	144
6.4	Features of admixtures	144
6.5	Classification of admixtures	145
6.6	Water reducing admixture	146
6.7	Retarders	149
6.8	Accelerators	151
6.9	Plasticizer cum retarder	152
6.10	Superplasticisers	152
6.11	Advanced Superplasticisers	162
6.12	Superplasticisers & Retarder	163
6.13	Other admixtures	163
6.14	Summary	170
7	Concrete shortcomings	171
7.1	Introduction	171
7.2	Concrete shortcomings - types	172
7.3	Creep	172
7.4	Concrete creep - cause	173
7.5	Creep - mechanism	173
7.6	Quantum of creep	173
7.7	Factors influencing creep	175
7.8	Measurement of creep	177
7.9	Shrinkage of concrete	179
7.10	Cracking of concrete	183
7.11	Crazing of concrete	184
7.12	Summary	185

Technology Training that Works

8	Protection of concrete- abrasion, corrosion and chemical attack	187
8.1	Introduction	187
8.2	Effect of physical causes on concrete	188
8.3	Concrete Abrasion	191
8.4	Chemical Attack	194
8.5	Sulphate Attack	195
8.6	Acid Attack	195
8.7	Corrosion	196
8.8	Sealers	200
8.9	Concrete Surface coating	201
8.10	Maintenance of Concrete	204
8.11	Summary	205
9	Concrete repair	207
9.1	Introduction	207
9.2	Concrete Distress	209
9.3	Defect Investigations	210
9.4	Concrete Repair	215
9.5	Concrete Removal for repair	216
9.6	Repair techniques	219
9.7	Cost of repairs	223
9.8	Summary	223
10	Special purpose concrete	225
10.1	Introduction	225
10.2	High Performance Concrete	226
10.3	High Strength Concrete	227
10.4	Fiber Reinforced Concrete (FRC)	230
10.5	Polymer Concrete	232
10.6	Cellular Concrete	234
10.7	Ferrocement	235
10.8	Self Compacting Concrete	236
10.9	Summary	238

Technology Training that Works

EXERCISES

1	Self compacting concrete	239
2	Concrete technology questionnaire: part 1	241
3	Underwater concrete construction	253
4	Concrete technology questionnaire: part 2	255
5	Concrete technology questionnaire: part 3	267
6	Concrete technology questionnaire: part 4	279
7	Concrete technology questionnaire: part 5	289
8	Concrete technology questionnaire: part 6	293
9	Concrete technology questionnaire: part 7	297
10	Concrete technology questionnaire: part 8	303
11	General questions	309
12	Calculations	315
