

Technology Training that Works

Hands-on Data Communications, Networking and TCP/IP Troubleshooting

Contents

1	Serial Data Communication	1
1.1	Asynchronous Serial Communication Basics	1
1.2	RS-232 Basics	6
1.3	RS 485/422 Basics	15
1.4	Summary	20
2	Ethernet and TCP/IP Networking	21
2.1	Ethernet	21
2.2	TCP/IP Protocol Suite	37
2.3	Internet Layer (OSI Layer 3) Protocols: IP, ARP, ICMP	39
2.4	Host-to-Host Layer (OSI Layer 4) Protocols TCP, UDP	53
2.5	Application Layer (OSI Layer 5/6/7) Protocols: FTP, HTTP, Telnet	58
2.6	TCP/IP Utilities	66
2.7	Network Components	79
2.8	Summary	93
3	Industrial Protocols: Modbus	95
3.1	Modbus Serial	95
3.2	Modbus TCP	104
3.3	Summary	110
4	Wireless LANs	111
4.1	Introduction	111
4.2	Architecture	113
4.3	Specification	117
4.4	Medium Access Control	123
4.5	Frame Structure	129
4.6	Industrial WLAN (IWLAN)	135
4.7	Summary	138
5	Security	139
5.1	Introduction	139
5.2	Basic 802.11 Security	140
5.3	802.1x Authentication	143
5.4	Differences between WPA and WPA2	144
5.5	Summary	144
