

Technology Training that Works

Practical Wireless, Ethernet and TCP/IP Networking

Contents

1	Introduction	1
1.1	Overview	1
1.2	The OSI model	1
<hr/>		
2	IEEE802.3 Ethernet	11
2.1	Introduction	11
2.2	IEEE/ISO standards	12
2.3	Ethernet frames	13
2.4	LLC frames and multiplexing	16
2.5	Media access control for half-duplex LANs (CSMA/CD)	18
2.6	MAC (CSMA-CD) for Gigabit half-duplex networks	20
2.7	Full-duplex transmissions	21
2.8	Auto-negotiation	22
2.9	Deterministic Ethernet	25
<hr/>		
3	Internet, Host-to-Host and Application Layer Protocols	27
3.1	Introduction	27
3.2	Internet Protocol	31
3.3	Address resolution protocol (ARP) and reverse address resolution protocol (RARP)	39
3.4	Internet control message protocol (ICMP)	41
3.5	Routing protocols	43
3.6	Transmission control protocol (TCP)	45
3.7	User datagram protocol (UDP)	52
3.8	MODBUS TCP/IP	53
3.9	Ethernet/IP (Ethernet/Industrial Protocol)	56
3.10	TCP/IP utilities	57
<hr/>		
4	LAN/WLAN Components	71
4.1	Introduction	71
4.2	Repeaters	71
4.3	Bridges	72
4.4	Hubs	73
4.5	Switches	75

Technology Training that Works

4.6	Routers	79
4.7	Gateways	80
4.8	Wireless access points	80
<hr/>		
5	Wireless Fundamentals	83
<hr/>		
5.1	Introduction	83
5.2	Electromagnetic waves	83
5.3	Radio/microwave frequency allocation	86
5.4	Single and dual-frequency systems	87
5.5	Gain and loss	88
5.6	Power levels	89
5.7	Attenuation	91
5.8	Modulation/demodulation	92
5.9	Spread spectrum techniques	101
5.10	Orthogonal frequency division multiplexing	105
5.11	Complementary code keying	106
<hr/>		
6	Antennas	109
<hr/>		
6.1	Introduction	109
6.2	Theory of operation	109
6.3	Types of antennas	112
6.4	Antenna diversity	116
6.5	Coaxial cables	117
6.6	Waveguides	119
6.7	VSWR and return loss	119
6.8	Antenna installation	122
<hr/>		
7	Wireless LANS	125
<hr/>		
7.1	Introduction	125
7.2	Architecture	127
7.3	Specifications	132
7.4	Medium access control	139
7.5	Frame structure	146
<hr/>		
8	Selecting, Installing and Configuring APs	155
<hr/>		
8.1	Introduction	155
8.2	The site survey	155
8.3	Determining the number of APs	161
8.4	Configuring APs	162
8.5	AP configuration options	163

Technology Training that Works

9	Network Security	167
9.1	Introduction	167
9.2	Security goal	167
9.3	Threats and underlying causes	169
9.4	Motivation for threats	169
9.5	Vulnerabilities	170
9.6	Network attacks	171
9.7	Common criteria approach for analysis of threats and vulnerabilities	173
9.8	Overview of IP network security	174
9.9	Security policies	175
9.10	Weaknesses in the TCP/IP protocol	176
9.11	Attack mechanisms	176
9.12	Preparing for an attack	176
9.13	Attack through unauthorized access	177
9.14	Attacking the data (data diddling)	177
9.15	Attack the service through Denial of Service (DoS)	179
9.16	Vulnerabilities of OSI layers	180
9.17	Network security at the transport layer	182
9.18	Network layer security	183
9.19	Data link layer security	184
9.20	Implementation of security measures for industrial WLANs	185
9.21	Some general guidelines	189
10	VPNs	191
10.1	Introduction	191
10.2	The Internet and the new communication paradigm	192
10.3	What is a VPN?	193
10.4	Types of VPN	193
10.5	Requirements for designing a VPN system	193
10.6	Defining of policy	194
10.7	Network infrastructure	194
10.8	Security	196
10.9	VPN protocols	198
11	Firewalls	203
11.1	Introduction	203
11.2	ACLs	204
11.3	Firewalls	205
11.4	Types of firewalls	206
11.5	Packet filter firewalls	206
11.6	Stateful Inspection firewalls	208
11.7	Application-proxy gateway firewalls	208
11.8	Dedicated proxy server	209

Technology Training that Works

11.9	Hybrid firewalls	209
11.10	Security through NAT	209
11.11	Port Address Translation (PAT)	210
11.12	Host-based firewalls	210
11.13	Personal firewall and firewall appliances	211
11.14	Guidelines for establishing firewalls	211
<hr/>		
12	Wireless PANs: Bluetooth / IEEE 802.15.1	213
<hr/>		
12.1	Introduction	213
12.2	Protocol stack	214
12.3	Piconets and scatternets	215
12.4	Medium access control	216
12.5	Frame formats	217
12.6	Antennas	218
12.7	Security issues	220
12.8	Using Bluetooth	224
<hr/>		
Appendix A Setting up a VPN Between Two Computers		227
<hr/>		
Appendix B Exercises		235
<hr/>		
Appendix C WPA and WPA2 Implementation White Paper		271
<hr/>
